

CONSIDER A BEAUTIFUL CHANGE

COSMETIC CENTER

A comprehensive cosmetic dermatology
and plastic surgery center

Laser Scar Treatment: Dramatically reducing the visibility of scar tissue

Whether you want to boost your confidence or look as young as you feel, board-certified plastic surgeons and dermatologists at **University of Minnesota Health Maple Grove Clinics** can help.

As one of the most popular cosmetic laser procedures available in today's market, this non-invasive approach allows patients to schedule an appointment early in the day, and most patients can return to normal activities immediately after. We use Fraxel®, Vbeam Perfecta® and CO2RE® laser treatments to provide a gentle and thoughtful aesthetic approach for fast results and maximum safety.

COSMETIC CENTER LOCATION:

University of Minnesota Health
Maple Grove Clinics
